

We're hiring. Explore the opportunities.

We're looking for designers who create irresistible experiences for our users.

Join our team

The Studio

IBM Studios Böblingen is located in Germany, close to Stuttgart – the home of Porsche, Mercedes-Benz. It was established in 2014 as a part of the global IBM Studios. We create experiences and work with other designers and engineers around the world.

Established professional? Just starting your career as an entry-level professional? Let us know who you are: full-time positions and internships are available now.

Design research

“I discover what we should do to provide value and delight to our users.”

Katrin Ellise Heintze

Design research translates business requirements into the hypotheses that we use to uncover emotional connections and develop actionable insights. Tools of the trade include contextual inquiries, and generative and quantitative research.

Design research

UX design

Visual design
